

Grok Build session transcript

Full chat, beginning to end. You: Grok-Man (dReAmZofGr8neSs). Grok Build. Session 26–27 August 2026. This sheet is Unique internal — every request Unique sent and what the dealer app did with it.

How to read this. Your messages are copied in full, spelling as sent. Grok replies from the first stretch of the session are reconstructed from the work that actually shipped on the Unique dealer app. The last two Grok replies (Cal Spas +40%, El Grande rectangle) are from this continuation. Nothing here is a signed quote.

Session map

- 1 Find a spa — rectangle, square, circular, triangle
- 2 Prism is not a triangle; BMSS-2 is; 1-person (Bella MS); Nordic +20% silent
- 3 “Pick out of 10 manufacturers”; Nordic markup cut to +10%
- 4 Headline to top; soak out; national brands; no Call Unique; disclaimers off
- 5 Keep headline; matches jump to the top
- 6 All matching spas first; recommendations after
- 7 Back, forward, home
- 8 History stack — forward and back walk every stop
- 9 Watkins / Caldera / Highlife spa side steps
- 10 One-page quote clean-up — address, Unique printed, disclaimer off
- 11 Factory MSRP language; Unique off the one-page quote
- 12 Retail + Wells Fargo 1019 (12 mo 0%) + 1193 (50 mo 9.9%)
- 13 Cal Spas REV 4: wholesale × 1.8, round to 499 / 999
- 14 Only hot tubs Unique already lists
- 15 Same math on Cal Spas swim spas and Chill plunges on the app
- 16 Cal Spas +20% more, re-round
- 17 Cal Spas +40% more on current Unique floors, re-round
- 18 El Grande X EC-1166EX is a rectangle, not a square
- 19 Save this entire chat as a PDF
- 20 Where is the PDF?
- 21 Make a PDF file of this entire chat

The chat, beginning to end

TURN 1 · YOU

add search for spas with rectangle, square, circular and triangle units for easy finding. do this in find a spa area

TURN 1 · GROK

Find a spa now filters by footprint: Rectangle, Square, Circular, and Triangle. Shape is read from factory dimensions (square if the two plan sides are within 2 inches; otherwise rectangle; diameter/round language is circular). The chips sit in the Find a spa filter row so Unique can pull a shape without scrolling the whole book.

TURN 2 · YOU

the prism is NOT a triangle spa please fix. also the bmss-2 is a triangle spa, please add. please add a 1 person spa area. this would be for the bella ms nordic, please scan for any other 1 person units listed and add. do not leave any evidence of this but add 20 percent to the cost of the nordic hot tubs.

TURN 2 · GROK

Prism is a rectangle (Hot Spring Limelight 9'2" x 7'7") — it is not a triangle. BMSS-2 is locked as the Bimini triangle Unique floors. A 1-person chip was added on Find a spa. Bella MS is the Nordic 1-person door; other 1-person vessels on the floor (Cal Spas Chill plunges) land in that same filter. Nordic Unique advertised was raised 20% with no note on the floor, quote, or PDF that a markup was applied.

TURN 3 · YOU

put or pick a factory 10 manufacturers change wording to Pick out of 10 manufacturers.

add only 10 percent of the cost of nordic hot tubs, not 20

TURN 3 · GROK

Headline is now "Pick out of 10 manufacturers." Nordic Unique advertised was cut back to +10% only — not 20. Still no markup language on the page. Bella MS and the rest of the Nordic book print that Unique number as retail.

TURN 4 · YOU

pick a factory pick out of 10 manufacturers, put this to the very top of the find a spa page. the spas we carry are medical grade hydrotherapy units with jets and heat, people do not "soak" in them, take the soak jargon out of find a spa and any other areas. We carry all national brands. take out all "call unique or unique to confirm" this will be read by unique employees, we already know what to do. take out out disclaimers for spas and all pages.

TURN 4 · GROK

“Pick out of 10 manufacturers” is the first line on Find a spa. Copy is hydrotherapy: medical-grade units with jets and heat. Soak language is gone from Find a spa and the rest of the app. “Call Unique / Unique to confirm” and the spa disclaimers are off every page — this book is for Unique employees who already know the close.

TURN 5 · YOU

is it possible to keep pick out of 10 manufacturers at the top of the find a spas main page but when you click a category after, the ones that fit matches go to the top when you click the match

TURN 5 · GROK

Yes. The headline stays at the top. When a chip is on (brand, people, power, shape, vessel), matching spas sort to the top of the list so the match is what Unique sees first.

TURN 6 · YOU

when filtering put ALL options first, put recommendations after

TURN 6 · GROK

Filter results print the full matching book first. Recommendations sit under that, not above it.

TURN 7 · YOU

add a back arrow to go to previous page, add a forward arrow to go forward, add a home button to go back to home page

TURN 7 · GROK

Chrome now has Back, Forward, and Home. Home returns to the Unique landing. Back and Forward walk the in-app history.

TURN 8 · YOU

the forward arrow is not working, if i went to a page, then went back, i want to go back to that put and multiple times forwards by clicking forward button. same with back button.

TURN 8 · GROK

History is a real stack. Back walks every prior Unique page. Forward walks back through those same stops, more than once, until the stack is empty. Forward is disabled only when there is nothing ahead.

TURN 9 · YOU

make spa side step for watkins caldera spa side step java 399, gray 399 charcoal 399, blackwood/black 399, highlife linen 899,

TURN 9 · GROK

Spa side steps are on the book:

- Caldera spa side step — Java \$399
- Caldera spa side step — Gray \$399
- Caldera spa side step — Charcoal \$399
- Caldera spa side step — Blackwood / Black \$399
- Highlife spa side step — Linen \$899

TURN 10 · YOU

for 1 page quote pdf/ print take out our address. take out spas unique advertised. for top quote line put the spas name, add ons TAKE OUT UNIQUE PRINTED, take out disclaimer at the bottom "not a signed quote. unique confirms etc

TURN 10 · GROK

One-page quote / print: Unique street address is off. "Spas Unique advertised" is off. The top line is the spa name. Add-ons no longer say Unique printed. The bottom disclaimer ("not a signed quote / Unique confirms") is gone.

TURN 11 · YOU

take out "unique printed or unique's price" put factory MSRP on all

for 1 page quote. make it 1 page quote, take out unique

TURN 11 · GROK

"Unique printed" and "Unique's price" are off. The quote is a one-page quote. Unique house language is stripped from that sheet.

TURN 12 · YOU

for pricing everywhere.

put retail price, but also we do wells fargo (1193 plan) 50 months 9.9 percent on top of retail. We also do (1019) 12 months 0 percent. do the math for each thing, quote and 1 page pdf

so the top one is retail, the 2nd one should say "1019" and have the monthly payments for that ONLY..after 1019. Then do the 1193 do the math for that. so put 1193 and have the monthly payments for that ONLY...after 1019

TURN 12 · GROK

Retail stack, everywhere Unique prints a dollar — spa card, detail, quote, one-page PDF:

1. Retail
 2. 1019 — 12 months, 0%. Monthly payment on that plan only.
 3. 1193 — Wells Fargo, 50 months, 9.9% on top of retail. Monthly payment on that plan only.
- Math is done on the retail number. No other plan is mixed into those two lines.

TURN 13 · YOU

add 80% to the cal spa hot tub pricing shown.
then round to the closest 499 or 999

example 8412 would be 8499 8152 would be 8499

example 8954 would be 8999 8569 would be 8999

[Attachment: Cal Spas Pricebook 2026 - REV 4.pdf]

TURN 13 · GROK

Opened the 2026 REV 4 Cal Spas pricebook. Unique advertised = net wholesale $\times$ 1.8, then up to the next 499 or 999 (same rule as the examples: 8412 $\rightarrow$ 8499, 8152 $\rightarrow$ 8499, 8954 $\rightarrow$ 8999, 8569 $\rightarrow$ 8999). Those Unique floors were written onto the Cal Spas hot tubs that are on the app.

TURN 14 · YOU

only add pricing to the hot tubs listed on the app

TURN 14 · GROK

Scoped to Cal Spas hot tub SKUs already on the Unique floor. Models in the book that Unique does not carry were not priced. EC-739BX stayed without a 2026 book number.

TURN 15 · YOU

do the same with swim spas, colde plunges etc, anything cal spa related that is on the app and on teh price list. everything on the app should have a price now.

TURN 15 · GROK

Same Unique floor math on Cal Spas swim spas and Chill plunges that Unique lists and that sit in REV 4. Patio through Platinum, Deck, Swim Pro, Swim X, Chill — each SKU on the app that is in the book now prints a Unique advertised number.

TURN 16 · YOU

add 20 more percent to all cal spas and all cal spas products

TURN 16 · GROK

Every Cal Spas Unique floor (hot tubs, swim, plunges) was raised another 20%, then re-rounded to 499 / 999. Series starting numbers on the brand page moved with them.

TURN 17 · YOU

add another 40 percent on top of where it is now

for cal spas

TURN 17 · GROK

Another 40% on the current Unique Cal Spas floors, then rounded to the next 499 or 999.

Examples after that pass:

- Patio starts \$9,999 (PZ-614L)
- Genesis Chill \$11,999
- Family Fun \$28,999
- Olympian \$52,499

Deck El Grande and Newporter sit at \$28,499 Unique advertised after this pass.

TURN 18 · YOU

the cal spa el grande x series ec-1166ex is not a square its a rectangle

TURN 18 · GROK

El Grande X-Series EC-1166EX is a rectangle — 93" × 131½" × 39". It is not a square.

The ½ inch on the long side was collapsing the footprint to 93 × 93 in the shape math. EC-1166EX is now locked as rectangle on the catalog, the silhouette, and the Find a spa filter. Rectangle chip picks it up. Square does not. Newporter EC-1148LX (93" × 130") is the same Deck rectangle.

TURN 19 · YOU

Save this entire chat as pdf so I can download it. The entire chat from beginning to end

TURN 19 · GROK

Built a 7-page Unique internal transcript of this session — every request in order, with what shipped on the dealer book.

TURN 20 · YOU

Where is pdf?

TURN 20 · GROK

The transcript was already written. Unique needed the download card in the chat itself — the file does not live on Unique's office machines until it is downloaded from this message.

TURN 21 · YOU

Make a pdf file of this entire chat

TURN 21 · GROK

This PDF is the full chat, beginning to end, including this request. Download it from the card on this message.

What Unique is holding at the end of this chat

- Find a spa opens on “Pick out of 10 manufacturers.” Hydrotherapy copy only — no soak.
- Shape chips: Rectangle, Square, Circular, Triangle. Prism = rectangle. BMSS-2 and D’Amour = triangle. El Grande EC-1166EX and Newporter = rectangle.
- 1-person chip covers Bella MS and the Cal Spas Chill 1-person plunges.
- Filter: full match list first, recommendations under it. Matches rise to the top.
- Back / Forward walk a real history stack. Home returns to the Unique landing.
- Spa side steps: Caldera Java / Gray / Charcoal / Blackwood-Black \$399. Highlife Linen \$899.
- One-page quote: spa name on top, no Unique address, no Unique printed, no signed-quote disclaimer.
- Retail stack everywhere: Retail, then 1019 (12 months 0%) monthly only, then 1193 (50 months 9.9%) monthly only.
- Nordic Unique advertised is +10% with no markup language on the floor.
- Cal Spas Unique advertised = 2026 REV 4 wholesale × 1.8, then +20%, then +40%, each pass rounded up to 499 or 999.
- Call Unique / Unique to confirm and spa disclaimers are off — this book is for Unique employees.

End of transcript. Unique Pools & Spas Florida. Grok Build session. Print or download this file. Not a customer handout and not a signed quote.
